## Executive Summary

The unaudited financial results of the Core Government for the six-month period ended 30 June 2024 show a \$203.2 million surplus (\$216.4 million for the EPS). Net Assets of the Government were \$2.4 billion, with overall bank account balances of \$584.0 million in cash and deposits.

When combined with the performance of SAGCs, the overall surplus (\$203.8 million) was \$55.3 million higher than the \$161.0 million EPS surplus that the 2024 Budget anticipated for the period. This was primarily due to higher coercive revenues (a positive variance of \$15.7 million – as per page 7) complemented by lower levels of expenditure in Personnel Costs (a positive variance of \$22.0 million – as per page 7) and Supplies and Consumables (a positive variance of \$10.6 million – as per page 7); offset by higher than budgeted levels of expenditure in Outputs from SAGCs (a negative variance of \$8.4 million – as per page 7), Outputs from Non-Governmental Suppliers (a negative variance of \$17.0 million – as per page 7), and Transfer Payments (a negative variance of \$2.6 million – as per page 7).

Compared to the same period in the prior year, Total Revenues of Core Government have increased by \$58.6 million. Additionally, Total Expenses of Core Government have risen by \$21.4 million. SAGCs' results through the Second Quarter were a positive variance of \$14.0 million when compared to the same period in 2023. Overall Net Surplus for the EPS increased by \$50.2 million when compared to the results through the Second Quarter of 2023.

Adherence to fiscal policy continues to yield significant overall cash and deposit balances held by Core Government. Operating Cash and Deposits were \$392.5 million and Reserves and Restricted Deposits were \$191.5 million, for a total Cash and Deposits balance of \$584.0 million.

It should also be noted that year to date savings in expenses, such as Personnel Costs and Supplies and Consumables, may not translate into full year savings and may be due to timing differences. Vacant posts and delayed projects will impact current costs reflected in Personnel Costs and Supplies and Consumables, respectively.

A summary of the financial results, financial positions and cash flows, is presented on page 6.

## Revenues

## Coercive Revenue

(See pages 22 to 25)

Coercive Revenue recorded for the period was \$15.7 million more than budgeted expectations and \$51.9 million higher than the prior year-to-date (2023) actual results. The positive variance to budget, (the amount of each variance is shown in brackets in the details that follow), was mainly attributable to:

Other Company Fees – Exempt Companies (\$11.7 million positive variance) were higher than the \$92.4 million expected budgeted amount for the Second Quarter due to increased registration. When compared to prior year-to-date performance, the 2024 results were \$17.9 million greater. Partnership fees (\$6.5 million positive variance) exceed budget owing to higher than anticipated registration in this category. Compared to the prior year actual there is a \$6.3 million positive variance. Private Fund Fees (\$3.8 million positive variance) performed better than the \$58.0 million anticipated due to an increase in the volume of funds registered. The current year results for these fees are \$3.8 million higher when compared to actual results for the prior year-to-date performance. The aforementioned fees are regulatory licences due at the beginning of each calendar year and tend to be favourable to budget throughout the Second Quarter. These regulatory licence fees then level out for the remainder of the year.

## Government of the Cayman Islands

---

Stamp Duty – Land Transfers (\$11.9 million positive variance) was higher due to higher volumes of property transactions coupled with increasing property values. The 2024 stamp duties of \$45.7 million are \$9.2 million more than the comparable quarter in 2023.

Notwithstanding the overall favourable results in revenues, when compared to the 2024 Budget, there were certain areas that fell short of projected expectations; in particular Other Import Duty (\$11.4 million negative variance). However, when compared to the results for prior year-to-date Other Import Duties are \$1.7 million more in 2024. DITC Filing Fees (\$6.3 million negative variance compared to budget) is a new coercive revenue stream that was slated to be introduced in 2024 however the commencement date has been deferred to 2025.

The Second Quarter generated coercive revenues of \$183.6 million, which was 11.1%, or \$18.3 million, more than the Second Quarter of 2023 coercive revenue of \$165.3 million. The majority of this change is attributable to higher Domestic Levies on Goods and Services (\$16.5 million positive variance), and increased Levies on Property (\$3.9 million positive variance).

### Foregone Revenues

The value of revenue forgone within the ambit of the Ministry of Finance and Economic Development for the Second Quarter of 2024, is shown by the table below. Many revenues foregone are statute-based (e.g. Stamp Duty Waivers for First Time Caymanian Property Buyers) and are granted once certain specified criteria in statutes are satisfied, whilst others are based on judgement and discretion.

## Sales of Goods and Services

**(See pages 22 and 26 to 28)**

Sales of Goods and Services of \$24.4 million were in-line with the 2024 projections and \$3.1 million improvement from prior year-to-date results.

## Investment Revenue

**(See page 22)**

Total Investment Revenue has produced \$16.7 million, which was \$11.2 million more than the 2024 budgeted revenue for the six-month period. Investment Revenue derives primarily from Interest earned on Marketable Securities (Fixed Deposits, Other Securities and Cash). Interest on Marketable Securities, reflecting interest earned on bank account balances held in the form of fixed deposits, has exceeded the initial full year budgeted revenue of \$11.2 million, by \$5.5 million. Higher cash balances have afforded higher values to be placed on fixed deposit and this has driven higher income earned on investments.

## Expenses

### Personnel Costs

(See page 22)

Costs relating to personnel for the first six months of 2024 amounted to \$227.1 million, thereby resulting in a savings in Personnel Costs of \$22.0 million when compared to a budget of \$249.1 million. This favourable variance is the result of vacant posts across several Ministries, Portfolios and Offices. The 2024 personnel costs are higher than the same period in 2023 by \$11.1 million.

### Supplies and Consumables

(See page 22)

Expenses for supplies and consumables of \$71.3 million were recorded for the six-month period ended 30 June 2024, which were \$10.6 million less than the \$81.9 million budgeted. Costs were \$4.8 million higher than prior year-to-date costs of \$66.5 million.

Ministries, Portfolios and Offices anticipate that as the year progresses costs will align closer to budgeted projections as more projects come online.

## Outputs from Statutory Authorities and Government Companies

(See page 29)

Outputs from SAGCs of \$98.0 million were \$8.4 million more than the anticipated year-to-date budget of \$89.5 million. Payments to the Health Services Authority (HSA) exceeded the year-to-date budget by \$7.3 million. The adverse variance with respect to the HSA is due to actual costs for the Care of Indigents of \$11.8 million exceeding the budget for this category.

When compared to the prior year-to-date actuals of \$88.3 million, the 2024 expenses of \$98.0 million are \$9.7 million more – mostly related to increase funding paid to the CINICO and the HSA in 2024 when compared to 2023.

## Outputs from Non-Governmental Suppliers

(See page 30)

Outputs from Non-Governmental Suppliers of \$38.9 million were \$17.0 million more than the year-to-date budget and have decreased by \$7.4 million than the same period in the prior year. The increase is mainly due to expenditure on “NGS 55 Tertiary Care at Local and Overseas Institutions” (NGS 55) being \$17.2 million more than its year-to-date budget. The costs for NGS 55 are currently \$26.5 million and is less than year-to-date spending by \$5.6 million.

## Transfer Payments

(See page 31)

Transfer Payments of \$35.8 million were \$2.5 million more than budgeted for the six-month period. This variance is mainly due to the overages in spending on Seamen Ex-Gratia (\$1.3 million negative variance) and Financial Assistance (\$4.2 million negative variance). When compared to the prior year-to-date actuals of \$31.9 million, the 2024 expenditure level of \$35.8 million represents an increase of \$3.9 million.

## Performance of Statutory Authorities and Government Companies

(See page 33)

SAGCs recorded a combined net Operating Surplus of \$13.2 million for the first six months of 2024; which was \$14.0 million more favourable than budgeted Operating Deficit of \$0.8 million. Based on the most recent information received from SAGCs, this favourable variance is mainly attributed to results being better than expected at the Cayman Islands Monetary Authority, the Civil Aviation Authority, CNINCO, the National Roads Authority and the Port Authority. These favourable variances were partially offset by the unfavourable performance of the Cayman Airways Limited and the Cayman Islands Airports Authority.

SAGCs overall performance when compared to the prior year-to-date improved by \$12.9 million.

## Unfunded Pension Liability

The Unfunded Pension Liability was \$343.5 million (at 31 December 2023) with respect to the Defined Benefit portion of Public Sector pension plans.

## Government Guaranteed Loan Programme (GLP) for Medium Size Businesses (MSBs) and Large Size Businesses (LSBs)

On 7 December 2020 the Government entered into an agreement with five (5) participating local banks to guarantee a loan program to offer and provide new credit facilities (NCFs) to qualifying MSBs and LSBs that were under financial duress for the purpose of providing critical working capital, critical capital expenditures and loan restructuring necessary for the economic viability of the eligible borrowers. The amounts guaranteed by the Government equal 50% of the aggregate of the outstanding principal, unpaid interest and other NCF costs of the eligible borrowers, provided that at no time the guaranteed amount exceeds \$375,000 for an MSB and \$1,500,000 for an LSB. As at 31 December 2022, 10 loans amounting to \$5.3 million have been approved for NCFs under the GGLP. The GGLP was closed on 30 November 2021 and thus Government's exposure will not increase.

The outstanding principal on these loans at 30 June 2024 was \$4.1 million; and the maximum Government exposure on these GGLP loans was 2.0 million. For the life of this program one bank has called in the guarantee of one loan totalling \$21.3 thousand which has been paid. No provisions have been made in these financial results for the possibility of a default on the remaining loan amounts.

## Loan to the Cayman Islands Airports Authority

An interest free loan of CI\$50.0 million to the Cayman Islands Airports Authority ("CIAA"), in order to complete a number of additional capital works for the enhancement of airport facilities, has been made available by Government. CIAA has commenced repayments of the principal as per the agreement. As at 30 June 2024, the balance remaining on the loan is \$48.3 million.

# Government of the Cayman Islands

## Loan to Cayman Turtle Conservation and Education Centre

An interest free loan of CI\$10.0 million to the CTC&EC was executed on 17 January 2022. As at 30 June 2024, the full amount of CI\$10.0 million has been drawn-down. A commencement date for repayment has not yet been established.

## Responsible Financial Management

Responsible financial management as defined by section 14(3) of the PMFA is as follows:

- Total core government revenue less total core government expenses (measured using generally accepted accounting practice), should be positive;
- Total core government assets less total core government liabilities (measured using generally accepted accounting practice), should be positive;
- borrowing should not exceed an amount for which the sum of interest, other debt servicing expenses, and principal repayments for a financial year are more than ten percent of core government revenue (calculated using generally accepted accounting practice) for that financial year, where, for the purposes of this principle, borrowing is defined as all borrowing that is in the name of the Government regardless of whether it is serviced directly by the core government, a statutory authority or government company;
- Net debt should be no more than eighty percent of core government revenue, where, for the purposes of this principle, net debt is defined as:
  - Central government borrowing less core government liquid assets;
  - Borrowing that is serviced directly by a statutory authority or government company but is in the name of the Government; and
  - The percentage of statutory authority and government company debt guaranteed by the Government that regulations made under this Act specify is to be included in the net debt calculation;
- Cash reserves should be maintained at a level no less than the estimated executive expenses (measured using generally accepted accounting practice), for the following ninety days where, for the purpose of this principle, cash reserves are defined as core government cash and cash equivalents, marketable securities and deposits, and other liquid assets, including any amounts held for restricted funds and reserves purposes; and
- The financial risks, including contingent liabilities, facing the core government should be managed prudently so as to minimise the likelihood of any such risk resulting in an expense or liability.

## Operating Activities

**(See page 18)**

Net cash inflows from Operating Activities totalled \$171.7 million for the period.

## Investing Activities

**(See page 18)**

Net cash outflows from Investing Activities totalled \$64.0 million.

Inflows from Investing Activities totalled \$415.0 million, principally related to the maturity of fixed deposits (\$412.5 million).

The effect of the movement (i.e. \$417.1 million less \$412.5 million) is an increase in the net amount placed on fixed deposits of \$4.6 million. Additionally, \$61.4 million was utilised for: Capital Investment and Expenditures relating to purchases of Property, Plant & Equipment (\$45.3 million) and Equity Investments in SAGCs (\$16.1 million).

## Financing Activities

**(See page 18)**

# Government of the Cayman Islands

## Capital Expenditures

## Conclusion

The overall fiscal performance reported for the period shows a Net Surplus of \$216.4 million for the EPS, which is 34% (\$55.3 million) higher than budgeted. This favourable position was due to actual revenues being higher than budgeted revenues by \$27.6 million for the period. Additionally, SAGCs contributed \$13.2 million to the overall surplus for the EPS, exceeding the estimated results for the third quarter of 2024 by \$14.0 million, (favourable when compared to SAGCs' expected deficit of \$0.8 million).

Government's Cash position ended at \$584.0 million at 30 June 2024. Cash and Cash Equivalents are \$7.1 million more than anticipated in the 2024 – 2025 Plan & Estimates, due to higher than expected revenues.

The Second Quarter's performance has positioned the Government to be optimistic about its performance for 2024. However, costs will continue to increase as more personnel/staff vacancies are filled and projects come online over the remaining two quarters of 2024. These costs will have to be diligently monitored to ensure spending is not incurred unnecessarily. Should planned increases in activity (in both Operating and Capital) materialise during the remaining months of 2024, the current surplus (to 30 June 2024) will be significantly reduced.
