## Education Data Report 2016

(For the 2015-16 academic year)

## SECTION 1

## Introduction

The Education Data Report for the Cayman Islands consists of enrolment data for both government and private schools and students' attendance and performance data from government schools.

In order to set targets for improvement both in individual schools and for the country as a whole, it is essential that reported students' performance data be both valid and reliable. To this end, the Ministry has established procedures which allow for the independent verification and validation of the data collection and report process prior to the publication of the reports.

The Data Report is published after all external examination results are made available to the Department of Education Services (DES). The data team, consisting of representatives from the Ministry of Education and the DES, is responsible for the collation and analysis of the data and for producing a report in a format suitable for public dissemination.

## The Cayman Islands' education system

The compulsory education system is comprised of primary and secondary levels divided by year groups and key stages as shown in Table 1.1.

Table 1.1
Organisation of the Compulsory Education System

| Early Years Provision | Primary Provision |  |  |  |  |  | Secondary Provision |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | Key Stage 1 |  |  | Key Stage 2 |  |  | Key Stage 3 |  |  | Key Stage 4 |  |  |
| Reception | Year 1 | Year 2 | Year 3 | Year 4 | Year 5 | Year 6 | Year 7 | Year 8 | Year 9 | Year 10 | Year 11 | Year 12 |
| 4-5 | 5-6 | 6-7 | 7-8 | 8-9 | 9-10 | 10-11 | 11-12 | 12-13 | 13-14 | 14-15 | 15-16 | 16-17 |

Schools gauge students' attainment in Key Stages 1, 2 and 3 (Years 1 to 9) according to the National Curriculum (NC) level achieved. The National Curriculum states what level the average student should be able to achieve by the end of each year. The range of national Curriculum Levels is illustrated in Figure 1.1. A variety of assessments is used to determine whether students are performing below, within or above the expected level for their age group. The average student at the end of

- Key Stage 2 (Year 6) should be achieving within the Level 4 range
- Key Stage 3 (Year 9) should be achieving within the Level 5 to 6 range

Figure 1.1
National Curriculum Levels

Students at the end of Key Stage 4 (KS4) take external examinations. The examinations most frequently taken by the students at our government high schools are:

- Caribbean Secondary Education Certificate (CSEC) offered by the Caribbean Examinations Council (CXC)
- General Certificate of Secondary Education (GCSE) offered by UK examination boards such as Assessment and Qualification Alliance (AQA) and Welsh Joint Education Committee (WJEC)
- International General Certificate of Secondary Education (IGCSE) offered by the Cambridge Examination Board.
In addition, students pursue technical and vocational qualifications offered by Pearson and The Institute of the Motor Industry (IMI).

Generally students take these external examinations at the end of Year 11. However, In the Cayman Islands, KS4 includes a compulsory Year 12 programme. Students entering this programme at the end of Year 11 are presented with three options through which they can continue their studies, based on academic criteria:

- Cayman Islands Further Education Centre (CIFEC) - an opportunity to re-sit mathematics and English examinations and take other external examinations;
- First year of A-Levels at a private school on island or any other suitably recognized institutions;
- First year of an Associate Degree programme at the University College of the Cayman Islands or other suitably recognized institution.

## Cayman Islands National Qualifications Framework (CINQF)

Generally, qualifications are defined in terms of a difficulty level. The established convention for interpreting levels is: the higher the level, the more difficult the qualification. The Cayman Islands' National Qualification Framework (see Table 1.2) explains that students at KS4 would be expected to take and pass subjects at Level 2 (expected level at the end of secondary education). Qualifications identified in CINQF are defined in Table 1.3.

Table 1.2
Qualifications Framework

| NQF | Sample Qualifications | Educational Stage |  |
| :--- | :--- | :--- | :--- |
| Level 5 | - Postgraduate Degree |  | Tertiary or Advanced Professional Qualifications |

Table 1.3
Glossary of terms used in the CINQF

| A-Level | Advanced level qualification. | These examinations typically allow for entrance into Bachelor level programmes |
| :--- | :--- | :--- |
| ASDAN | Award Scheme Development and <br> Accreditation Network | This organization offers programmes and qualifications targeting skills for learning, <br> employment and life. |
| BTEC | Business and Technology Educational <br> Council | An examining body that validates and certifies vocational courses. |
| CAPE | Caribbean Advanced Proficiency <br> Examination | This is an academic qualification awarded in a specified subject offered by the Caribbean <br> Examinations Council; these examinations typically allow for entrance into Bachelor level <br> programmes. |
| CCSLC | Caribbean Certificate of Secondary <br> Level Competence | This is an academic qualification awarded in a specified subject offered by the Caribbean <br> Examinations Council; the certification is based on a core of knowledge skills, attitudes <br> and values targeting school leavers. |
| CoEA | Certificate of Educational Achievement | An entry level certification usually assessed in the final three years of secondary <br> schooling. |
| CSEC | Caribbean Secondary Education <br> Certificate | This is an academic qualification awarded in a range of subjects offered by the Caribbean <br> Examinations Council. This award usually leads to entrance to further programmes of <br> advanced study. |
| CXC | Caribbean Examinations Council | A regional examining body that offers examinations at various levels. <br> General Certificate of Secondary <br> Education |
| This is an academic qualification awarded in a specified subject, generally taken in a |  |  |
| number of subjects by students aged 14-16 in secondary education. |  |  |

## Graduation Criteria for government schools

In 2014, the Ministry of Education determined that in order for a student to graduate from high school, there should be some recognition of their level of academic achievement. The academic levels and the criteria for graduation are set out as follows:
a. Level 1 diploma: at least 5 subjects passed at Level 1 or higher, which must include English or literacy functional skills and mathematics, numeracy or mathematics functional skills;
b. Level 2 diploma: at least 5 subjects passed at Level 2 or higher, which must include English and Mathematics(CXC, GCSE, IGCSE, AS or AP);
c. Level 2 diploma with honours: at least 7 subjects passed at Level 2 or higher, which must include English and mathematics (CXC, GCSE, IGCSE, AS or AP);
d. Level 2 diploma with high honours: at least 9 subjects passed at Level 2 or higher at grades $\mathrm{I}-\mathrm{II} / \mathrm{A}^{*}$ B or the equivalent standard (grades I or II for CXC CSEC; A*, A, or B for GCSE/IGCSE; Distinction for BTEC; or the equivalent standard for other externally awarded qualifications). The 9 subjects must include English and mathematics at this standard through one of the following examinations: CXC CSEC, GCSE, IGCSE, AS or AP.

A student must pass at least five subjects, two of which must be English and mathematics at either the Level 1 or Level 2 in order to graduate. The academic level achieved by the student is identified on the Diploma. It is much more desirable for a student to pass five subjects, including English and mathematics at Level 2, the higher level. (See the National Qualifications Framework).

In addition to the academic criteria, students must also meet the following conditions in order to graduate from high school and to participate in the high school graduation ceremonies:
a. $90 \%$ or more attendance during Years 10-12 (authorised absences are included in this figure, provided they have been submitted by the required deadline in Year 12)
b. Less than 15 days suspension during Year 10-12

Students with special educational needs studying within mainstream education at the high schools should be able to access at least the Level 1 diploma. In exceptional cases, a Special Educational Needs Level 1 Diploma may be awarded. Students from Lighthouse School receive a separate diploma.

## SECTION 2

## 2015-16 Enrolment and Attendance Data

This report reflects enrolment data for all government and primary schools in the Cayman Islands including centres providing early childhood care and education

## Early Childhood Care and Education (ECCE)

ECCE centres are organised into three categories:

1. ECCE Private Centres: Centres owned by private individuals/companies who provide care and education services for children younger than compulsory school age
2. ECCE Settings in Private Schools: Services/programmes for children under compulsory school age which are attached or affiliated with registered private schools
3. ECCE Settings in Public Schools: Services/programmes for children under compulsory school age which are attached or affiliated with Government schools (i.e. Reception programme)

Table 2.1 provides details regarding the enrolment at all ECCE centres by district and type of centre. It is evident that provision for ECCE is largely a function of the private sector. Government provides oversight and the regulatory framework for this sector.

Table 2.1
Enrolment by type of ECCE centre and district

|  | George Town | West Bay | Bodden Town | North Side | East End | Sister Islands | Total |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Number of Centres | 26 | 6 | 4 | 1 | 2 | 4 | 43 |
| Total Enrolment | 1401 | 187 | 171 | 17 | 9 | 69 | 1854 |
| Enrolment by setting: |  |  |  |  |  |  |  |
| ECCE private centres | 965 | 96 | 71 | 0 | 0 | 48 | 1180 |
| ECCE settings in private schools | 348 | 11 | 0 | 0 | 0 | 0 | 359 |
| ECCE settings in government schools | 88 | 80 | 100 | 17 | 9 | 21 | 315 |
| Enrolment by Gender |  |  |  |  |  |  |  |
| Girls | 679 | 81 | 81 | 10 | 4 | 25 | 880 |
| Boys | 722 | 106 | 90 | 7 | 5 | 44 | 974 |

## Primary and Secondary enrolment

Tables 2.2 to 2.5 provide enrolment and staffing data for public and private schools. At the primary level, 42\% of students of mandatory school age attend private schools while $58 \%$ are in public education. $38 \%$ and $62 \%$ are in private or public education respectively at the secondary level. On average, $41 \%$ and $59 \%$ of mandatory school age attend private schools or public schools respectively.

| 12 years | 0 | 3 | 3 | 114 | 117 | 231 | 114 | 120 | 234 |
| 13 years | 0 | 0 | 0 | 123 | 108 | 231 | 123 | 108 | 231 |
| 14 years | 0 | 0 | 0 | 97 | 112 | 209 | 97 | 112 | 209 |
| 15 years | 0 | 0 | 0 | 105 | 80 | 185 | 105 | 80 | 185 |
| 16 years | 0 | 0 | 0 | 81 | 85 | 166 | 81 | 85 | 166 |
| 17 years | 0 | 0 | 0 | 76 | 59 | 135 | 76 | 59 | 135 |
| 18 years | 0 | 0 | 0 | 16 | 18 | 34 | 16 | 18 | 34 |
| 19 years | 0 | 0 | 0 | 1 | 1 | 2 | 1 | 1 | 2 |
| 20 years | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 | 0 |
| Total | 876 | 928 | 1804 | 726 | 683 | 1409 | 1602 | 1611 | 3213 |

## Government school attendance

As indicated earlier, attendance is one of the components of the graduation criteria. Figure 2.1 shows a comparative analysis of the attendance at public primary and secondary schools for the period under consideration. The data suggest that electronic recording of attendance data has improved significantly overtime as evidenced by the reduction in missing data. It is also evident that student attendance has remained relatively stable over time averaging 94\% for the primary schools and 91\% for the secondary schools.

Figure 2.1
School Attendance

## SECTION 3

## ACADEMIC PERFORMANCE DATA

## Cognitive Abilities Tests (CAT4)

Cognitive Abilities Tests (CAT4) is used to gauge the potential of students through a series of verbal, nonverbal, quantitative and spatial ability tests. CAT4 is also a valuable screening tool that can be used to identify a pupil's strengths, weaknesses and learning preferences and to help set challenging but realistic targets. Significant identified variations between the potential measured by CAT4 and actual outcomes can form the basis for further investigation of potential barriers to learning.

CAT4 tests are taken in Years 4 and 6 in government primary schools and in Year 9 in government secondary schools.

## Year 6 Indicators

Table 3.1 provides a comparison of the CAT 4 predictors for the 2016 Year 6 cohort and their actual outcomes. Currently, the CAT4 assessments suggest that at the end of primary school approximately $82 \%$ of our students should be achieving National Curriculum (NC) Level 4 or higher in English and that 84\% of our students should be achieving NC Level 4 or higher in mathematics. The actual attainment for the current year 6 cohort stands at 59\% in English and 52\% in mathematics.

Table 3.1
Comparison of Year 6 CAT 4 estimates with Actual Outcomes (2011-16)

| Year | Description | English <br> Level 4+ | Mathematics <br> Level 4+ |
| :--- | :--- | :---: | :---: |
| $\mathbf{2 0 1 6}$ | Year 6 CAT4 estimate | 82 | 84 |
|  | Year 6 actual attainment | 59 | 52 |
| 2015 | Year 6 CAT4 estimate | 80 | 75 |
|  | Year 6 actual attainment | 68 | 43 |
| 2014 | Year 6 CAT4 estimate | 79 | 76 |
|  | Year 6 actual attainment | 63 | 48 |
| 2013 | Year 6 CAT4 estimate | 75 | 75 |
|  | Year 6 actual attainment | 50 | 40 |
| 2012 | Year 6 CAT4 estimate | 70 | 68 |
|  | Year 6 actual attainment | 50 | 42 |
| 2011 | Year 6 CAT3 estimate | 59 | 57 |
|  | Year 6 actual attainment | 33 | 25 |

The general trend for the period under consideration is that our students are underachieving in English and mathematics relative to their CAT estimates. The challenge therefore, is to ensure that all students leaving primary education achieve expected standards in these core subjects.

A detailed description of the actual performances for the 2016 Year 6 cohort at the end of key stage 2 tests is provided in Tables 3.2 to 3.3. The national expectation is that students will leave primary education with a NC level 4 or above. 59\% of students achieved the expected level in English while $52 \%$ achieved the mathematics. This represents a reduction over the 2015 figures in English by 8\% points and an increase by $8 \%$ for mathematics. Declines in English levels are impacted by the low performances in reading. While the writing in our schools continue to show improvement over time, the reading levels have shown declines over the 2014 and 15 figures (see Table 3.3).

Despite these declines identified, overall system performance continues to show a positive trend over time (see Figure A2 and A3). Other NC levels attainment data can be found in Appendix A.

## Table 3.2

2016 National Curriculum Attainment Levels (English, reading, writing and mathematics)

|  | Number of students at each Level |  |  |  |  |  |  |  |

## Key:

A represents students who were absent.
WTL2 represents students who took the tests but were still working towards Level 2.

Table 3.3
2016 National Curriculum attainment Levels (English, reading, writing and mathematics)

Key: A represents students who were absent
WTL2 represents students who took the tests but were still working towards Level 2

## SECTION 4

## Key Stage 4 Performance Data

## External Examinations - 2015-16

Performance data in this section is based on the examinations that students took during Years 10-12. The following qualifications are offered:

- Caribbean Secondary Certificate of Education (CSEC)
- General Certificate of Secondary Education (GCSE)
- International General Certificate of Secondary Education (IGCSE)
- Business and Technical Education Council (BTEC) awards
- Institute of the Motor Industry (IMI) awards
- Award Scheme Accreditation and Development Network (ASDAN) awards

Students begin their KS4 programme in Year 10 at the high schools. The external examinations that students take in Year 11 will contribute to their overall results at the end of Year 12. Compulsory education terminates at the end of Year 12 and the accumulated grades for the Year 12 cohort are published as the results for KS4 performance. The expectation is that students will pass five subjects, including English and Mathematics at Level 2. (See the Cayman Islands National Qualifications Framework). An analysis of how the various subjects taken at KS4 performed is available in Appendix D.

## Cognitive Abilities Tests (CAT4) - Year 11 and Year 12

Secondary students take the CAT4 test in Year 9 which gives a prediction of the grades that they are capable of achieving by the end of Year 11. Table 4.1 compares the predicted results from the Year 9 CAT 4 test with the actual grades achieved on external examinations at the end of Year 11 and in Year 12 (the end of compulsory education in the Cayman Islands).

The following key points can be derived from the data in Table 4.1 and the associated chart:
The Year 11 cohort
a) performed below (2\%) their CAT predictors for 5 or more Level 2 passes including English and mathematics
b) exceeded estimates for the percentage passing Level 2 English (11\%) and Level 2 mathematics (1\%).

The Year 12 cohort exceeded the CAT 4 predictors in the areas considered. This highlights the value added by the compulsory educational provision in Year 12.

Table 4.1
Performance indicators - predicted and actual outcomes

|  | Year 11 |  | Year 12 |  |
| :--- | :---: | :---: | :---: | :---: |
| Performance Indicator | CAT <br> Estimate | End of <br> Year 11 <br> Actual | CAT <br> Estimate | End of <br> Year 12 <br> Actual |
| 5+ Level 2 passes inc. En/Ma | $38 \%$ | $36 \%$ | $37 \%$ | $47 \%$ |
| 5+ Level 2 passes | $73 \%$ | $53 \%$ | $69 \%$ | $68 \%$ |
| 5+ Level 1 and 2 passes | $97 \%$ | $97 \%$ | $96 \%$ | $97 \%$ |
| Level 2 English | $52 \%$ | $63 \%$ | $44 \%$ | $70 \%$ |
| Level 2 Mathematics | $39 \%$ | $40 \%$ | $38 \%$ | $50 \%$ |

In addition, Figure 4.1 and 4.2 provide a comparative analysis of the performances of students in Years 11 and 12 for the period 2012 to 2016. The data indicates a marginal decline in performance over the 2015 figures (from $38 \%$ to $36 \%$ ). This can be attributed to an overall under performance in mathematics seen throughout the region in 2016. Further, results indicate positive growth trends over the period for both cohorts although performances in Year 11 remain below the predicted norms defined by the CAT4. The percentage of students achieving 5 or more subjects continues to make significant gains over time (approximately 30 percentage
points over the 5 year period under consideration), whereas the number of students achieving 5 subjects (including math and English) which has increased by approximately 20 percentage points over a 5 year period (See Figure 4.3). The slower growth of the latter is due almost entirely to less marked progress in mathematics, and the lower grades reported in 2016 across the region.

Figure 4.1
Comparison of the percentage of Year 11 students achieving 5 or more subjects at Level 2 including English and mathematics

| Description | 2012 | 2013 | 2014 | 2015 | 2016 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Percentage of Year 11 students with 5 or more <br> subjects at Level 2 including English and mathematics | 23 | 28 | 32 | 38 | 36 |
| Number of Year 11 students with 5 or more subjects <br> at Level 2 including English and mathematics | 88 | 110 | 123 | 146 | 149 |
| Number of students in cohort | 391 | 395 | 388 | 389 | 410 |

## Key Points:

- There is a marginal decline in performance over 2015 figures (from $38 \%$ to $36 \%$ ). This can be attributed to a an overall under performance in mathematics performance seen throughout the region in 2016
- A positive growth trend is still evident despite this marginal decline.

Figure 4.2
Comparison of percentage of Year 12 students achieving 5 or more subjects at Level 2 including English and mathematics - 2012-2015

| Year 12 Data | 2012 | 2013 | 2014 | 2015 | 2016 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Percentage of Year 12 students with 5 or more <br> subjects at Level 2 including English and <br> mathematics | 23 | 35 | 47 | 48 | 47 |
| Number of students with 5 or more Level 2 <br> subjects including English and mathematics | 76 | 135 | 178 | 187 | 182 |
| Number of students in cohort | 335 | 384 | 381 | 391 | 389 |

## Key Point:

- The percentage of students in Year 12 attaining 5 or more subjects including English and mathematics at Level 2 has doubled when compared to the 2012.
- There is a marginal decline in performance over 2015 figures.
- A positive growth trend is still evident despite this marginal decline.

Figure 4.3
Percentage of Year 12 students achieving 5 or more Level 2 subjects

According to the graduation criteria, a student must pass at least five subjects at either Level 1 or Level 2, two of which must be English and mathematics. (See the Cayman Islands National Qualifications Framework). Figure 4.4 displays the percentage of students who met the academic criteria for graduation for the period 2012-2016.

Figure 4.4
Comparison of the percentage of Year 12 students achieving 5 or more subjects at Level 1 or higher including English and Mathematics

| Year | 2012 | 2013 | 2014 | 2015 | 2016 |
| :--- | :---: | :---: | :---: | :---: | :---: |
| Percentage of Students with 5 or more subjects at <br> Level 1 or higher including English and Mathematics | 87 | 90 | 92 | 91 | 96 |
| Number of Students with 5 or more subjects at Level <br> $\mathbf{1}$ or higher including English and Mathematics | 290 | 345 | 349 | 354 | 373 |
| Number of students in cohort | 335 | 384 | 381 | 391 | 389 |

An analysis of other specific data and comparisons related to KS4 are made available in Appendix B to D .

## Appendix A <br> End of Key Stage 2 Data

## Table A1

Percentage of students attaining NC level 2 or below by gender for English, reading, writing and Mathematics

|  | Percentage of students at hevel 2 or below |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | English | Reading | Writing | Mathematics |
| All students |  |  |  |  |
| 2016 | 10 | 19 | 5 | 13 |
| 2015 | 8 | 10 | 9 | 16 |
| 2014 | 4 | 6 | 6 | 15 |
| 2013 | 12 | 19 | 11 | 13 |
| 2012 | 14 | 13 | 9 | 16 |
| 2011 | 24 | 25 | 26 | 23 |
| Girls |  |  |  |  |
| 2016 | 6 | 14 | 2 | 13 |
| 2015 | 3 | 6 | 4 | 13 |
| 2014 | 4 | 4 | 6 | 16 |
| 2013 | 9 | 16 | 7 | 12 |
| 2012 | 6 | 6 | 3 | 11 |
| 2011 | 16 | 19 | 17 | 22 |
| Boys |  |  |  |  |
| 2016 | 14 | 24 | 9 | 13 |
| 2015 | 13 | 15 | 15 | 20 |
| 2014 | 5 | 9 | 5 | 14 |
| 2013 | 15 | 22 | 16 | 14 |
| 2012 | 23 | 22 | 17 | 22 |
| 2011 | 32 | 32 | 33 | 24 |

## Key Points:

- Level 2 and below is the lowest recorded level a student can achieve. The decreasing trend from 2011 to 2016 is a positive feature of recent improvements. However, the expectation is that most students would have achieved a NC Level 4 by the end of Year 6.

## Table A2

Percentage of students attaining NC level 3 by gender for English, reading, writing and Mathematics

| Percentage of students at Level 3 or above |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | English | Reading | Writing | Mathematics |
| All students |  |  |  |  |
| 2016 | 86 | 86 | 91 | 84 |
| 2015 | 90 | 88 | 89 | 81 |
| 2014 | 91 | 93 | 90 | 81 |
| 2013 | 85 | 81 | 86 | 85 |
| 2012 | 82 | 85 | 87 | 81 |
| 2011 | 73 | 72 | 73 | 74 |
| Girls |  |  |  |  |
| 2016 | 91 | 84 | 95 | 85 |
| 2015 | 95 | 92 | 94 | 85 |
| 2014 | 92 | 94 | 91 | 82 |
| 2013 | 90 | 84 | 92 | 87 |
| 2012 | 91 | 93 | 94 | 87 |
| 2011 | 80 | 78 | 80 | 73 |
| Boys |  |  |  |  |
| 2016 | 80 | 72 | 86 | 82 |
| 2015 | 85 | 84 | 83 | 77 |
| 2014 | 90 | 91 | 89 | 80 |
| 2013 | 81 | 77 | 80 | 83 |
| 2012 | 71 | 76 | 77 | 74 |
| 2011 | 67 | 67 | 66 | 74 |

## Key Points:

- The expectation is that most students would have achieved a NC Level 4 by the end of Year 6.

Table A3
Percentage of students attaining NC level 4 or above by gender for English, reading, writing and Mathematics

| Percentage of students at Level 4 or above |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | English | Reading | Writing | Mathematics |
| All students |  |  |  |  |
| 2016 | 59 | 59 | 61 | 52 |
| 2015 | 68 | 72 | 62 | 43 |
| 2014 | 63 | 77 | 49 | 48 |
| 2013 | 50 | 56 | 37 | 40 |
| 2012 | 50 | 62 | 39 | 42 |
| 2011 | 33 | 44 | 29 | 25 |
| Girls |  |  |  |  |
| 2016 | 67 | 66 | 71 | 53 |
| 2015 | 76 | 80 | 70 | 43 |
| 2014 | 69 | 80 | 59 | 48 |
| 2013 | 53 | 59 | 44 | 40 |
| 2012 | 66 | 73 | 53 | 44 |

| 2012 | 31 | 49 | 22 | 39 |
| 2011 | 25 | 35 | 23 | 24 |

Table A4
Percentage of students attaining NC level 5 by gender for English, reading, writing and Mathematics

| Percentage of students at Level 5 |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: |
|  | English | Reading | Writing | Mathematics |
| All students |  |  |  |  |
| 2016 | 13 | 12 | 18 | 16 |
| 2015 | 15 | 23 | 12 | 11 |
| 2014 | 20 | 36 | 12 | 15 |
| 2013 | 7 | 14 | 7 | 7 |
| 2012 | 8 | 14 | 4 | 6 |
| 2011 | 4 | 10 | 3 | 5 |
| Girls |  |  |  |  |
| 2016 | 17 | 16 | 24 | 16 |
| 2015 | 19 | 29 | 16 | 9 |
| 2014 | 27 | 40 | 8 | 15 |
| 2013 | 9 | 17 | 5 | 5 |
| 2012 | 11 | 13 | 3 | 5 |
| 2011 | 4 | 8 | 12 | 5 |
| Boys |  | 16 | 8 |  |
| 2016 | 8 | 32 | 4 | 16 |
| 2015 | 11 | 11 | 5 | 13 |
| 2014 | 12 | 9 | 3 | 15 |
| 2013 | 4 | 4 | 2 | 9 |
| 2012 | 4 |  |  | 4 |
| 2011 | 4 |  |  |  |

## Key Points:

- The trend over the last three years is an increase in the number of students attaining National Curriculum Level 5 in Mathematics, Writing, Reading and English. However, aside from Writing, there have been marginal performance declines over last year.
- The overall number of students is relatively small so judgments about this trend are less secure. Students achieving Level 5 are performing above the national expectation which is Level 4.

Figure A1
KS2 Year 6 Cohort performances

Figure A2
Mathematical performance trends

Figure A3

## Performance trends in English

Figure A4
Comparison of Actual Outcomes with Predicted Outcomes

## Key Points:

- While the number of students achieving the NC target (level 4) is increasing, generally students are performing well below their CAT 4 predictions. Additionally, performances in English exceed those in mathematics.
- There is significant value adding at the higher end of the cohort.
- More targeted support and interventions are needed to raise the standard of achievement among students in level 3 band.

Appendix B
Key Stage 4 Summaries
(Year 11 and 12 Comparative Analyses)
Figure B1
Percentage of Year 12 students achieving 5 or more subjects at Level 2 including English and Mathematics from 2012-2016 (Comparative performance in Year 11 and 12 - same cohort)

*Note: 2014 was the first year of the Year 12 program at Layman Scott High School so Layman Scott High School data is not included in the 2012 and 2013 data
