THIS AGREEMENT dated 7th January 2009 is made:

BETWEEN:

NOW IT IS AGREED as follows:

1. This Main Agreement sets out the main terms between the Government and the Developer relating to the development of the Property by the Developer and such other ancillary matters outlined herein. It is recognized and understood by the parties that circumstances may require that further agreement or agreements

may have to entered into with other parties or may be necessary to provide for greater detail or specificity of the obligations and initiatives provided for hereunder. The parties hereby agree that if such agreement or agreements are entered into, the relevant provisions of this Main Agreement shall be incorporated into such agreement or agreements substantially in the terms herein agreed save only for such amendments and/or variations thereto as may be agreed and/or required in the context of such agreement or agreements.

2. The Developer hereby agrees that it will use its best endeavours to procure an agreement with the Port Authority which will require the Developer to develop a public marina on a suitable and appropriate location within or in close proximity to the Property which agreement shall be substantially in the same form and substantially on the same terms as the Agreement annexed hereto as "Schedule I".
3. The Developer hereby agrees that it will, insofar as is reasonably practicable, continue to allow members of the public to acquire membership to the golf course located upon the Property and shall allow, insofar as is legally possible and reasonably practicable, recognizing the Developers primary obligation to the rights of landowners within the Property, such members to have equal rights relating to such membership and that all members will be allowed to play on the said golf course until such time as redevelopment of the property dictates that the golf course or part or parts thereof should be closed for necessary earth works, construction or related activities at which time the course or such part or parts thereof will be closed to all members. The Developer further agrees that after completion of the construction of the golf course it will continue to provide opportunities for membership whereby members of the public can acquire golf access without the requirement to first purchase property within the development.

4. Government hereby agrees to grant to the Developer a Variation of Lease in respect of the existing lease on the Property substantially in the same terms as set out in the draft Schedule to Variation of Part of Lease annexed hereto as "Schedule II" so as to provide for a lease in respect of the Property with a term ending ninety-nine (99) years from the date of execution of the instrument whereby such extension is granted. Such extension shall be subject to the Developer paying to Government, as rent in respect thereof, a sum or sums of money to be agreed between the parties based on the current market value of such an extension.
5. Government hereby agrees to do everything within its lawful authority to support and assist the Developer in obtaining the necessary licences and approvals (including granting the necessary coastal works licence) for the redevelopment of the North Sound coastline along the eastern end of the Property substantially in the manner depicted by the Draft Master Plan annexed hereto as "Schedule III". Such redevelopment will include reclamation and excavation of the coastline, construction of adequate and appropriate shoreline protection and remediation and/or replacement of the existing damaged mangrove island located immediately to the east of the Property. In furtherance of this objective, Government hereby further agrees to grant to the Developer leases in respect of Block 17A Parcel 5 and Block 12C Parcel 362, being the two mangrove islands lying offshore from and adjacent to the Property, substantially in the same terms as set out in the two Draft Lease Agreements annexed hereto together as "Schedule IV".
6. Government hereby agrees to grant waivers and reductions in Stamp Duty in accordance with "Schedule V" annexed hereto so as to encourage the marketability of the North Sound side of the West Bay Peninsula.

"Schedule VI" annexed hereto so as to allow the project to be developed viably and expeditiously.

8. Government hereby agrees to do everything within its lawful authority to support and assist the Developer in obtaining the necessary permissions, licenses and/or approvals from the Airports Authority or any other relevant body or agency for the purpose of the Developer obtaining a dedicated space within the current and proposed expanded/modified Owen Roberts Airport terminal for the exclusive use of the Development for the landing and processing by Immigration and Customs of owners, tenants and residents of the Development and for the promotion of the Development. The Developer shall be solely responsible for the cost of creating, renovating or modifying such space to meet the purposes intended and will pay all normal operating costs for the space including but not limited to water, electricity, insurance and common area charges if any. Government shall recommend to the Airports Authority and/or any other relevant body or agency that the Developer shall pay these costs and all costs associated with the provision of customs and immigration services at this space in lieu of any rent which would otherwise be charged for the space for a period of ten years or until such time as the costs incurred by the Developer in creating, renovating, modifying and operating the space have been offset, which is the sooner and Government shall further recommend that such space shall be leased to the Developer for a period not less than twenty years on reasonable and appropriate terms and at an open market rate for that type of premises.

Government shall recommend to the Water Authority and/or any other relevant body or agency that such rates shall be such that the cost of supply of such services to the Development is the same as or less than the actual cost of the Developer producing those services for itself. If the Water Authority is not able or willing to provide such non-potable water to the Property within the necessary timeframe Government will do everything in its power or under its lawful control to assist the Developer in obtaining any necessary licence to the Developer so as to allow the Developer to produce such non-potable water itself for use within the Development.
