Vaccination Remains our Best Defence

Our goal is to safely reopen our Country while locally managing the risk of transmission by maximising vaccination rates and continued surveillance testing throughout each phase.

Guiding Principles of the Plan

- 01. A phased approach based on the best medical science and data
- 02. Acceptance of securely verified vaccination certificates
- 03. 80% local vaccination rate

** **

- 04. Ongoing assessment of key Public Health and Healthcare indicators
- 05. Working in partnership with stakeholders
- 06. Keeping the community informed

Phase 1

Summary of changes

Reduced Quarantine Period

(Effective June 2021)

Continued uptake of local vaccination and low COVID-19 prevalence rates in key Cayman Islands travel markets allow for the introduction of reduced quarantine periods and easing of other travel restrictions.

Travel

Who

Returning Caymanians
Residents, Work Permit Holders
Others with close ties to the country (such as property owners)
No cruise tourism

Process

All travellers apply on Travel Cayman Portal

Testing

Pre-Arrival PCR

Required for all

Arrival PCR

No longer required

Quarantine Exit PCR

Required for all

Quarantine

Period

5 Days - Verified vaccinated

10 Days - Unverified vaccinated

14 Days - Unvaccinated

GPS Tracking

Required

Location

Quarantine Facilities
Approved Residences

Government will only pay for quarantine of travellers who conducted essential travel only, as outlined by Regulations

Compliance

Travel Cayman conducts regular and frequent phone calls and location checks on all travellers in quarantine

Business

Services

Safety Precautions

Safety protocols may be issued by regulators and industry associations

Scuba and snorkelling equipment permitted only with approval

PCR Test Frontline Workers

Surveillance PCR Testing

Gathering Limits

500 people indoors 1,000 people outdoors

Public transport and taxi service to operate at full seating capacity, with masks

The transition between phases is determined by the CMO's assessment of prevalence rates in key travel markets, vaccination rate, prevalence of Variants of Concern, the level of hospitalisations and death rates.

Phase 2

Summary of changes

Reduced Repatriation Restrictions

(Effective 9 August 2021)

Easing the monitoring of vaccinated travellers by the removal of GPS monitoring allows CI Government to assess local impacts and build capacity to manage the increase in traveller volume anticipated with the opening of the borders in Phase 3.

Up to weekly testing for unvaccinated workers

Gathering Limits

500 people indoors 1,000 people outdoors

Public transport and taxi service to operate at full seating capacity, with masks

The transition between phases is determined by the CMO's assessment of prevalence rates in key travel markets, vaccination rate, prevalence of Variants of Concern, the level of hospitalisations and death rates.

Summary of changes

Limited Introduction of Tourism

(Effective 9 September 2021)

Subject to the achievement of an 80% vaccination rate, the limited introduction of tourism during slow season with some restrictions (including a flight slot management system) allows the CI Government to manage the number of persons arriving.

This also allows CI Government and the tourism industry to develop capacity for dealing with larger volumes of travellers in preparation for high season.

Travel

Summary of changes

Reduced Quarantine Restrictions

(Effective 14 October 2021)

Quarantine requirements will be removed for all securely verified vaccinated travellers.

It is anticipated that the local vaccination rate will be adequate, allowing for the safe increase in tourism and further relaxation of restrictions.

Travel

Who

Securely verified vaccinated travellers

No cruise tourism

Process

Vaccinated travellers required to make a declaration of travel and vaccination status.

Vaccination documentation checked upon arrival.

Unvaccinated travellers continue to apply on Travel Cayman Portal (requires approval to travel)

Testing

Pre-Arrival PCR

Required for all

Arrival PCR

No longer required

Quarantine Exit PCR

Required for all

Return to School PCR

Required for unvaccinated children age 5+ after international travel

Quarantine

Period

O Days - Verified vaccinated

10 Days - Unverified vaccinated

14 Days - Unvaccinated

GPS Tracking

Required for quarantining travellers

Location

All hotels and other tourist accommodations

Compliance

Periodic spot checks on travellers in quarantine

Business & Services

Safety Precautions

Must adhere to safety protocols issued by regulators and industry which complies with CARPHA guidelines

PCR Test Frontline Workers

Surveillance PCR Testing (including school staff)

Up to weekly testing for unvaccinated workers

Gathering Limits

Decreasing the public gathering limits may be needed depending on increased public health risk

Public transport and taxi service to operate at half seating capacity, with masks

The transition between phases is determined by the CMO's assessment of prevalence rates in key travel markets, vaccination rate, prevalence of Variants of Concern, the level of hospitalisations and death rates.
