

Appendix 3 - Responses

Island	Area	Name or Organisation	Have you read this nomination?	How familiar are you with this nominated area?	Support for nomination	Please let us know in your own words any thoughts, opinions or suggestions you may have about this nomination.	General support for protected areas in Cayman?	I am commenting as:		Registered Voter?
Grand Cayman	Barkers	Allie Cortens	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Amber Bothwell	Yes	I know it quite well	I support it	It would be wonderful to see this area become a managed conservation area or national park, as previously proposed. It is a beautiful area and home to important native species but it needs protection from overuse, litter, unleashed dogs, etc. It particularly needs attention from persons with training and experience in conservation and land management so that native species are not destroyed through unnecessary clearing, as has happened in the past.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Andy Holloway	Yes	I know it quite well	I support it	All of these areas need protection and preservation by the people and government of the Cayman Islands. However, this proposal does not go far enough. The harbor, Seven Mile Beach, Marine Parks and other more heavily trafficked areas also need our protection for future generations and the continued prosperity the islands currently enjoy. Good luck in this and future projects.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Brittany Balli, Grand Cayman Eco Divers	Yes	I've been there once or twice	I support it	I feel that there is so much land that is developed on that it's good to have protected areas. Mangrove protection is also very important to our ocean environment.	I support this	A business or company operating in the Cayman Islands		No
Grand Cayman	Barkers	Claire Hughes	Yes	I'm very familiar with it	I support it	Cayman needs areas which won't be built upon. Please preserve areas like Barkers before the developers ruin this beautiful area.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Courtney Platt	Yes	I'm very familiar with it	I support it	This is the only spot I have ever found and photographed our endemic Pygmy Blue Butterfly. It is a wonderful place to enjoy discovering wildlife and offers great potential for ecotourism in the future if preserved.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Danielle Bouchard	Yes	I'm very familiar with it	I support it	As a resident of West Bay I consider Barkers to be one of the few natural areas left available to the public for recreation whether it be for exercising, participating in water activities or for the pure enjoyment of nature. Over the last 20 years the area has been abused and it is time that it be protected and managed properly, as a park, a nature reserve. I spend a lot of time in Barkers enjoying the wildlife, flora and fauna of the area. I have worked in tourism educating about the importance of the mangroves and as such, I fully support this proposed protected area. It is a good start, and I hope that eventually all of Barkers will be protected. I have noticed the impact of the invasive Scaevola in Barkers, how it is suffocating many of the native species of plants. I also notice how some people use Barkers as a dump, cut trees for not apparent reason and use the remote area to dump carcasses of turtles, goats, dogs, iguanas and in some cases conch shells. It is sometimes impossible to change the nature of people but with the Conservation Law in effect it is hoped that the proposed protected areas for Barkers will bring about changes that will benefit both the public that enjoys the area as well as the fauna and flora that strives there. Good luck!	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Ems Melland	Yes	I'm very familiar with it	I support it	This area should be protected and nature should be encouraged to flourish so we can preserve and therefore educate with the natural resources and wildlife that is there. Make it a proper national park for all to use - it's so beautiful but more can be done with it to encourage more people to use it	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Gerardo Ochoa-Vargas	Yes	I know it quite well	I support it	It would be pivotal to implement real and comprehensive surveillance, as the place has become a lawless land, used as a dump, and the roads (i.e., the main one) are widened just because, without any particular need. You have to wonder what is the purpose of widening so much the roads at Barker, particularly the main road... eating and smothering the mangroves around.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	J. Bryan Bothwell	Yes	I'm very familiar with it	I support it	Should be expanded to include more of the beach and the whole of sea-pond (a very unique piece of heritage). The wash-wood trees are a tremendous 'treasure' that need to be preserved and helped to expand - I had never seen them elsewhere. And there are beautiful species of fish in the MRCU canals not easily seen anywhere else, and wonderful bird life, wild flowers, etc. This truly needs to be preserved as naturally as possible for Cayman's identity and for our younger and future generations (as well as eco-tourism - emphasis on eco!). Thank you	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	James Bodden	Yes	I'm very familiar with it	I support it	Please exclude the commercial activity	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Johanna Kohler	Yes	I know it quite well	I support it	With increased development and associated decrease in natural (coastal) habitat, the Mangrove areas at Barkers are vital for a healthy environment - terrestrial and marine.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	John D. McDow	Yes	I'm very familiar with it	I support it	I believe the employment of park rangers (that are actually there) to enforce conservation laws and prevent littering would greatly add to the effectiveness of this protection act and add to the value of the tourism product.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	John Epp	Yes	I've been there once or twice	I support it	Disappointed to learn that Barkers Peninsula is not a National Park. Next to a replenishment zone. Needs to be designated a protected area for greater good.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Jonathan Welds	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Karen Scott	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Karen Shan Stephenson	Yes	I know it quite well	I support it	n/a	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Katie Alpers, and Indigo Divers.	Yes	I know it quite well	I support it	A peaceful area of natural beauty. I try to collect trash up here when I can. So close to the hub of SMB this area is wonderful place to remind us why we moved to the islands. Whilst growth is important to the infrastructure of the islands, if we do not protect the natural untouched areas, there will be no reason for people to come to our island. Balance is key.	I support this	Other (please specify)	Individual member of the public, and owner of a small business.	No
Grand Cayman	Barkers	Kinsey Tedford, Visiting Scientist from the University of Central Oklahoma	Yes	I'm very familiar with it	I support it		I support this	A person or entity based outside of the Cayman Islands		No
Grand Cayman	Barkers	Kirsten Luke McCord	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Laura A. Ebanks	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Laura Powery Egglisshaw	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Len Layman	Yes	I know it quite well	I support it	We need to protect this area from being taken over by developers intent on rebuilding Cayman the way they envision it should be, never consulting the Cayman people.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Lisa Robertson	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	MARIKA JUHASZ SCHEER	Yes	I know it quite well	I support it	Not about only this nomination but in general...please..please...stop building cayman...soon there will be no tree left...for example in southsound, every day there is a new construction...HEARTBREAKING	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Martin Wilkinson	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Monique Banker	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Morgan Elizabeth Golden-Ebanks	Yes	I'm very familiar with it	I support it	My suggestion is please protect this space in its entirety. This is a very popular area for tourists and Caymanians. It is one of the last undisturbed areas on the West Side of the island and many people enjoy coming to Barkers due to its lack of development and the peace and quiet it provides. There are several endemic and native species that are found in Barkers and survive in very particular habitats (which Barkers has). Loss of this area to development also means loss of these species and loss of an important recreational area for Caymanians and visitors alike. There are important wetlands also located in this area which are important ecologically and economically.	I support this	Other (please specify)	A Caymanian	Yes
Grand Cayman	Barkers	Pamela Johnson, home owner	Yes	I'm very familiar with it	I support it	As a winter visitor with a home in West Bay, I frequently look for natural areas to look for birds and butterflies of the Cayman Islands. I am very concerned with the loss of natural habitat. Barker's is one of the best birding ponds on the island. Just in Jan. I noted 20 species of birds and 10 species of butterflies in a morning walk. I hope the Roosters aren't the only bird that will eventually call the island home!	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Paulo Fierro	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Penny McDowall	No	I've never visited it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Peter Jones	Yes	I'm very familiar with it	I support it	The proposed area is not large enough and should at least include Sea Pond, Palmetto Pond and all of the beach strip.	I support this	An individual member of the Cayman Islands public		No

Island	Area	Name or Organisation	Have you read this nomination?	How familiar are you with this nominated area?	Support for nomination	Please let us know in your own words any thoughts, opinions or suggestions you may have about this nomination.	General support for protected areas in Cayman?	I am commenting as:		Registered Voter?
Grand Cayman	Barkers	Richard Foster	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Vaughn Bodden	Yes	I'm very familiar with it	I support it	As a child, my family and I would regularly visit Barkers, and it has always been my favourite place to relax in West Bay. It is home to the largest stretch of intact coastal shrubland habitat which is an important area for many native plant and reptile species. Coastal shrubland areas across Grand Cayman are constantly under threat of development, and as mostly crown owned land, this serves as an opportunity to protect this fragile habitat without the high costs of purchasing privately owned coastal land. The diversity of bird species and sensitive mangrove habitat also make Barkers a strong candidate for protected area status. Its inherent value for recreation is being utilised, but possible future use for educational purposes would benefit public perception of Cayman's natural beauty for generations to come.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Arthurlyn Pedley	Yes	I know it quite well	I support it	I am in support of this because I am keen to see the plants and animals found in this area protected. I am aware of the threats posed by the growing number of small businesses, green iguanas, cats dogs etc and if unchecked/ unmanaged, we will likely lose several endemic species + the natural beauty of this area will gradually be lost.	I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	John Ebanks	Yes	I'm very familiar with it	I am neutral, unsure or ambivalent about it	What are the plans for this area if protected? Will we be able to continue to use it to fish? camp? And will it cost to do so?	I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Dart Real Estate	Yes	I'm very familiar with it		We are conceptually supportive of the principle of Protected Areas designation. However, the National Conservation Law does not specifically refer to the implications of owning land adjacent to Protected Areas. In addition as the law does not call for the Management Plan to be prepared prior to designation, we are uncertain of the developability of the land adjacent to a Protected Area. Representatives from Dart Real Estate have met with the Department of Environment to help inform our understanding of how Protected Area designations will impact future uses and development opportunities for Dart-owned lands. As the process becomes more developed, it will be beneficial for the purpose of effective land planning. In our meeting the Department of Environment committed to work closely together on drafting the Management Plans for future Protected Areas adjacent to Dart-owned properties, ensuring that the full scope of structure, site work, operations, staffing and budget are addressed. However, given the lack of certainty surrounding implications and limitations of Management Plans on adjacent lands, we cannot offer explicit support of the nominations of the above listed Crown Land to become Terrestrial Protected Areas under Section 9 of the National Conservation Law. We reiterate our support of the concept of Protected Areas. In addition to its commitment to sustainable practices and responsible environmental management of its developed properties, Dart Real Estate holds considerable land on Grand Cayman and Little Cayman largely for conservation purposes. We have also worked closely over the last decade with the National Trust for the Cayman Islands to acquire additional land for conservation purposes. We look forward to working with the Department of Environment and National Conservation Council and assisting with the preparation of site specific and effective long-term Management Plans, based on sound and proven resource management principles and practices.	I support this	Other (please specify)	Adjacent landowner (in receipt of Notice of Nomination from NCC)	Yes
Grand Cayman	Barkers	Caymanian public	Yes	I know it quite well	I support it	Why has this taken so long since it was announced and then dedicated by the Earl?	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Barkers	Dominique	Yes	I've been there once or twice	I support it	It is an area which supports a balance between wildlife and human activity.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Melanie	Yes	I know it quite well	I support it	I am pleased to see the effort the DOE is taking to maintain all of these areas. (It would be nice to check more than one option in question one above)	I support this	A person or entity based outside of the Cayman Islands		No
Grand Cayman	Barkers	unanimous	No	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	wendy	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Barkers	Sue	Yes	I've been there once or twice	I am neutral, unsure or ambivalent about it	What will be done?	I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		No

Grand Cayman	Vidal Cay	Allie Cortens	Yes	I've never visited it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Vidal Cay	Amber Bothwell	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Vidal Cay	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Vidal Cay	J. Bryan Bothwell	Yes	I'm very familiar with it	I support it	One of the few remaining pieces of who we are - perhaps especially for the people of West Bay	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Vidal Cay	John Epp	Yes	I've never visited it	I support it	Best use	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Vidal Cay	Laura Egglisshaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Vidal Cay	Martin Wilkinson	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Vidal Cay	Richard Foster	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No

Grand Cayman	Salt Creek mangroves	Amber Bothwell	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Ava Seymour	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Belinda Hart Murphy	Yes	I'm very familiar with it	I support it	The mangroves play an integral part in protecting the island from storms, providing a habitat for our wildlife and marine life and contributing to the natural beauty of our island.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Chelsea duty	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Cherisse Merren	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Cheryl Seymour	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Conor O'Dea and family	Yes	I'm very familiar with it	I support it	It is important that we persevere these areas because it is the natural habitat to indigenous species. The rate of development by Dart, which I support, is great for Cayman but we must ensure that we take time to adequately protect indigenous species and flora and fauna for the long term.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Glenn Kennedy (no organization)	Yes	I know it quite well	I support it	Would be a shame to see this remaining bit of natural mangrove habitat ripped up for more housing. I'm in favour of preserving it for nature. However it would also be a mistake to turn it into some heavily accessed public space like Smith Cove, or carved up with a bunch of new trails which the dirtbikers will just proceed to pollute and ruin. Public access/use should be limited to walking trails and perhaps picnic sites, like e.g. the Mastic Trail. Protection doesn't necessarily equate to turning it into public use space.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	J. Bryan Bothwell	Yes	I know it quite well	I support it	A good case has been made in the nomination - too much already destroyed	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Jack McGregor (Caymanian minor)	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	John Epp	Yes	I've been there once or twice	I support it	A small but important public space.	I support this	An individual member of the Cayman Islands public		Yes

Island	Area	Name or Organisation	Have you read this nomination?	How familiar are you with this nominated area?	Support for nomination	Please let us know in your own words any thoughts, opinions or suggestions you may have about this nomination.	General support for protected areas in Cayman?	I am commenting as:		Registered Voter?
Grand Cayman	Salt Creek mangroves	L.Eden	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Laura Powery Egglisshaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Marco Calleja	Yes	I'm very familiar with it	I support it	I fully support the protection of Salt Creek Mangroves for enjoyment by the general public and eco system of the marine park environment. Cayman's beauty includes iconic sites such as these mangroves and it is important for national protection on this area.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Marcus Cumber	Yes	I'm very familiar with it	I support it	Its an area of pristine beauty that needs to be protected. its not accessible by beach so away from tourists etc that i feel make it more valuable for nature and animals.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Martin Wilkinson	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Nathan Dack	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Norm McGregor	Yes	I'm very familiar with it	I support it	Great sanctuary for wildlife and trees. Green iguanas need to be targeted however.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Richard Foster	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Scott Lennon	Yes	I'm very familiar with it	I support it	I live on Salt Creek directly across from the nominated area. I enjoy kayaking and paddle boarding along the mangroves and I enjoy the diversity of wildlife. This is one of the few large tracts of mangrove in the West Bay/North Sound area and it should be preserved.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Stella Seymour	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Thomas McGregor (Caymanian minor)	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Tracey McGregor	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Vaughn Bodden	Yes	I know it quite well	I support it	Having natural areas with managed public access will be essential for Cayman's future tourism image as an island paradise. As many tourists spend a majority of their time in the West Bay area, having natural areas that are easy to access will add to the visitor experience and aesthetic value of the area. Its educational value should also be advertised to local schools so that younger generations can continue to learn about and appreciate Cayman's natural beauty.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Matthew Ebanks	Yes	I know it quite well	I am neutral, unsure or ambivalent about it	What is the plan? Why now? What about Dart?	I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Dart Real Estate	Yes	I'm very familiar with it		We are conceptually supportive of the principle of Protected Areas designation. However, the National Conservation Law does not specifically refer to the implications of owning land adjacent to Protected Areas. In addition as the law does not call for the Management Plan to be prepared prior to designation, we are uncertain of the developability of the land adjacent to a Protected Area. Representatives from Dart Real Estate have met with the Department of Environment to help inform our understanding of how Protected Area designations will impact future uses and development opportunities for Dart-owned lands. As the process becomes more developed, it will be beneficial for the purpose of effective land planning. In our meeting the Department of Environment committed to work closely together on drafting the Management Plans for future Protected Areas adjacent to Dart-owned properties, ensuring that the full scope of structure, site work, operations, staffing and budget are addressed. However, given the lack of certainty surrounding implications and limitations of Management Plans on adjacent lands, we cannot offer explicit support of the nominations of the above listed Crown Land to become Terrestrial Protected Areas under Section 9 of the National Conservation Law. We reiterate our support of the concept of Protected Areas. In addition to its commitment to sustainable practices and responsible environmental management of its developed properties, Dart Real Estate holds considerable land on Grand Cayman and Little Cayman largely for conservation purposes. We have also worked closely over the last decade with the National Trust for the Cayman Islands to acquire additional land for conservation purposes. We look forward to working with the Department of Environment and National Conservation Council and assisting with the preparation of site specific and effective long-term Management Plans, based on sound and proven resource management principles and practices.	I support this	Other (please specify)	Adjacent landowner (in receipt of Notice of Nomination from NCC)	Yes
Grand Cayman	Salt Creek mangroves	Garett Haylock	Yes	I know it quite well	I do not support it	It could be an asset to the government and people of this country in the near future and to change later would be difficult.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	James Bodden	Yes	I know it quite well	I do not support it	Need more info	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	John Ebanks	Yes	I know it quite well	I do not support it	Don't think we have enough information on this proposal to decide	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Sterling Dwayne Ebanks	Yes	I'm very familiar with it	I do not support it	At this time, I would encourage the NCC to withdraw this nomination; the surrounding lands are all privately owned and this designation, if successful, could potentially increase the value thereof at the public's expense. Moreover, it may be prudent to have a better understanding of what is slated for the surrounding private lands.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Juneau Barnett	Yes	I've been there once or twice	I do not support it	Although nominating this particular area shows benefits upon first glance, delving deeper we see that all of the surrounding area is owned by one particular developer, therefore, if we safeguard it and allow them to then develop around it, they would get their own personal nature sanctuary. Instead I propose we use it to create a national university that would still leave most of the land un-developed but also allow future students to study the natural fauna and flora of the area.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Anonymous Caymanian	Yes	I've been there once or twice	I support it	Not enough Government protected land in this area. In general for that matter. On another note these Nominations should be publicized more for more Caymanian input.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Bob	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Anon.	Yes	I know it quite well	I am neutral, unsure or ambivalent about it	Not enough details to agree to this as yet	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Barbara	Yes	I've been there once or twice	I am neutral, unsure or ambivalent about it	I don't believe there has been sufficient education about this proposal, nor a concerted awareness campaign	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Frank	Yes	I've been there once or twice	I am neutral, unsure or ambivalent about it	Where is the info?	I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Not necessary	Yes	I've been there once or twice	I am neutral, unsure or ambivalent about it	What are the plans for this site?	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Peter	Yes	I've been there once or twice	I am neutral, unsure or ambivalent about it	need details	I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Frank	Yes	I know it quite well	I do not support it	I believe, that this area would better serve Caymanians as a possible site for a national university where we could keep much of the natural state, use it for research and benefit from developing an education tourism sector. If nominated it will benefit a few individuals/Company and not the vast majority of Caymanians. I strongly suggest to remove this from the nomination for now and DOE to have 4-5 meetings with the people of West Bay to discuss if they want this to be kept on the nomination list. I suggest 4-5 meetings as one meeting you do not get the representation to base an opinion.	I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes

Island	Area	Name or Organisation	Have you read this nomination?	How familiar are you with this nominated area?	Support for nomination	Please let us know in your own words any thoughts, opinions or suggestions you may have about this nomination.	General support for protected areas in Cayman?	I am commenting as:		Registered Voter?
Grand Cayman	Salt Creek mangroves	Joe	No	I've never visited it	I do not support it		I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Mark	Yes	I've been there once or twice	I do not support it	I'm unable to support this at this time	I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Sal	Yes	I know it quite well	I do not support it	No details on what is planned; very sneaky	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Shalisa	Yes	I know it quite well	I do not support it		I am neutral, unsure or ambivalent about this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Sue	Yes	I've been there once or twice	I do not support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Salt Creek mangroves	Thomas	Yes	I've been there once or twice	I do not support it	There is no rush; lack of details; the land is already owned by the public	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Salt Creek mangroves	Denise	Yes	I've been there once or twice	I do not support it	I don't think we should give Dart a free park area for his developments. Why do we need to rush to do something with it now? Government owns this land, and surely we can do something to benefit Caymanians rather than just Dart.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Western Mangrove Cays	Allie Cortens	Yes	I've never visited it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Western Mangrove Cays	Ambassadors of the Environment	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Western Mangrove Cays	Amber Bothwell	Yes	I know it quite well	I support it	I think protection of mangroves in this area is essential for ecological reasons but also for hurricane protection and recovery. Plus they add to the beauty of residential areas nearby.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Western Mangrove Cays	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Western Mangrove Cays	Glenn Kennedy (no organization)	Yes	I know it quite well	I support it	Frigatebirds (aka man 'o wars) in particular are a wonderful natural asset of Grand Cayman. I've seen visitors mesmerized by them as they soar in the currents above the restaurants at Morgan's Harbour. I've heard one of these cays referred to as man 'o war cay, I assume in reference to these birds resting/breeding there. These cays should be protected to preserve nesting/roosting sites for the frigatebirds. While it's not obvious that these cays face any imminent development pressure, just look at Bermuda, where houses sit on the tiniest of little parcels and islets. Should Grand Cayman reach Bermuda's development density these cays could be threatened or lost. Preserving them is the right thing to do.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Western Mangrove Cays	J. Bryan Bothwell	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Western Mangrove Cays	John Epp	Yes	I've been there once or twice	I support it	Near very narrow and low land area. Need remaining coastal mangroves to assist in protecting land and replenishing nature ecosystem.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Western Mangrove Cays	Laura (Powery) Egglisshaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Western Mangrove Cays	Martin Wilkinson	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Western Mangrove Cays	Richard Foster	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Western Mangrove Cays	Vaughn Bodden	Yes	I'm very familiar with it	I support it	I frequently visit the large mangrove cay near to Safe Haven marina, and I am always surprised by the abundance of marine life using the area as a refuge. As a summer camp leader, kayaking around the mangrove cays is always a favourite activity with the children and is a unique opportunity to observe the diversity of a mangrove habitat in an accessible area.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Western Mangrove Cays	Dart Real Estate	Yes	I'm very familiar with it		We are conceptually supportive of the principle of Protected Areas designation. However, the National Conservation Law does not specifically refer to the implications of owning land adjacent to Protected Areas. In addition as the law does not call for the Management Plan to be prepared prior to designation, we are uncertain of the developability of the land adjacent to a Protected Area. Representatives from Dart Real Estate have met with the Department of Environment to help inform our understanding of how Protected Area designations will impact future uses and development opportunities for Dart-owned lands. As the process becomes more developed, it will be beneficial for the purpose of effective land planning. In our meeting the Department of Environment committed to work closely together on drafting the Management Plans for future Protected Areas adjacent to Dart-owned properties, ensuring that the full scope of structure, site work, operations, staffing and budget are addressed. However, given the lack of certainty surrounding implications and limitations of Management Plans on adjacent lands, we cannot offer explicit support of the nominations of the above listed Crown land to become Terrestrial Protected Areas under Section 9 of the National Conservation Law. We reiterate our support of the concept of Protected Areas. In addition to its commitment to sustainable practices and responsible environmental management of its developed properties, Dart Real Estate holds considerable land on Grand Cayman and Little Cayman largely for conservation purposes. We have also worked closely over the last decade with the National Trust for the Cayman Islands to acquire additional land for conservation purposes. We look forward to working with the Department of Environment and National Conservation Council and assisting with the preparation of site specific and effective long-term Management Plans, based on sound and proven resource management principles and practices.	I support this	Other (please specify)	Adjacent landowner (in receipt of Notice of Nomination from NCC)	Yes
Grand Cayman	Western Mangrove Cays	Me	Yes	I've never visited it	I support it	How would development onshore affect this area, esp. runoff?	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	Amber Bothwell	Yes	I've never visited it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	Brittany, Grand Cayman Eco Divers	Yes	I've never visited it	I support it	Protections for bats is very important.	I support this	A business or company operating in the Cayman Islands		No
Grand Cayman	Lower Valley Forest	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	Courtney Platt	Yes	I'm very familiar with it	I support it	Undisturbed, old growth forests of this nature are critical to the long term health of our endemic terrestrial species and if preserved, offer great potential for future ecotourism opportunities. If we claim to support sustainable development practices, then we must prove it by putting our best natural resources under protection.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	John Epp	Yes	I've never visited it	I support it	We need to support a Bat population. Other endangered and endemic plants are present, and the forest flora is notably diverse which is worth preserving for young Caymanians to enjoy.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	Karen Scott	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	Laura Powery Egglisshaw	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	Martin Wilkinson	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	Pamela Johnson, home owner	Yes	I'm very familiar with it	I support it	As a local birder I have been saddened to see the area cleared and not open to the public (the agricultural grounds) on Saturdays. I would often visit to see the local and migratory birds in the adjoining forest. I'd like to see all of the adjoining lands protected.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Lower Valley Forest	Rachel McField	Yes	I've never visited it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Lower Valley Forest	Richard Foster	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Lower Valley Forest	Vaughn Bodden	Yes	I've been there once or twice	I support it	The dry forest habitats towards the south-west of the island are mostly fragmented and under threat of development due to the growing population. Development projects in the surrounding areas of remaining dry forest should be encouraged to keep local vegetation on the property, possibly by offering small subsidies for landowners that avoid speculative clearing. By keeping large native trees on developed land could allow for some connectivity between remaining tracts of forest habitats.	I support this	An individual member of the Cayman Islands public		No

Appendix 3 - Responses

Island	Area	Name or Organisation	Have you read this nomination?	How familiar are you with this nominated area?	Support for nomination	Please let us know in your own words any thoughts, opinions or suggestions you may have about this nomination.	General support for protected areas in Cayman?	I am commenting as:		Registered Voter?
Grand Cayman	Central Mangrove Wetland	Brett McTaggart	Yes	I know it quite well	I support it	The mangrove system is vital for Cayman's well being. It provides shelter for many animals, contributes to our local weather patterns and ecosystem. It's difficult to choose "one place" to nominate as they are all unique.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Central Mangrove Wetland	Claire Hughes	Yes	I'm very familiar with it	I support it	I believe all the remaining mangrove areas should be protected.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Central Mangrove Wetland	Courtney Platt	Yes	I know it quite well	I support it	I believe it is critical to the long term health of North Sound and our reefs and our fish population.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Central Mangrove Wetland	Gabriella Hernandez	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Central Mangrove Wetland	Ian Charlery	Yes	I'm very familiar with it	I support it	Our mangroves are important. We should preserve them as a matter of priority with safety at the forefront of our minds.	I support this	A business or company operating in the Cayman Islands		Yes
Grand Cayman	Central Mangrove Wetland	Imani Abdul-Jabbar	Yes	I've never visited it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Central Mangrove Wetland	John Epp	Yes	I know it quite well	I support it	Very important to protect this area.	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Central Mangrove Wetland	Karen Scott	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Central Mangrove Wetland	Kirsti Bjerkhof	Yes	I know it quite well	I support it	A bird sanctuary and valuable site for nature lovers and scientists alike.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Central Mangrove Wetland	Kristina Horacek	Yes	I know it quite well	I support it	I recently moved away from the island, and am hoping to return in the future. This area is one that I visited often by paddleboard. I am familiar with how important the mangroves are to the ecosystem and the water of the island. Of the proposed protected areas this looks to be the largest and most important area. However, I support protection of all the proposed mangrove sites.	I support this	A person or entity based outside of the Cayman Islands		No
Grand Cayman	Central Mangrove Wetland	Laura Egglshaw	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Central Mangrove Wetland	Martin Wilkinson	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Central Mangrove Wetland	Megan McTaggart	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Central Mangrove Wetland	MONIQUE BANKER	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Central Mangrove Wetland	Morgan Elizabeth Golden-Ebanks	Yes	I've never visited it	I support it	The Central Mangrove Wetlands is the heart of Grand Cayman. It is not only important ecologically but also economically. Protecting this area preserves this critical habitat and also preserves our economy by maintaining clear waters and providing nurseries for virtually all of our juvenile reef fish and other marine life that end up on our reefs. The Central Mangrove Wetlands provide a significant amount of moisture in the atmosphere which causes it to rain on the western side of the island. Destruction of this area will cause drastic ecological, environmental and social issues. Please do not let this recommendation pass your desk.	I support this	Other (please specify)	A Caymanian	Yes
Grand Cayman	Central Mangrove Wetland	Penelope Bird	Yes	I'm very familiar with it	I support it	I remember that area from when I was a child, at that time most of Cayman looked/felt like that area. I believe that South Sound up to West Bay is a lost cause (although I do believe that development should be hindered in those areas), however this area of wetlands is untouched and should remain so for environmental reason as well as for the future generations of Cayman so that they do not 100% grow up in a concrete jungle	I support this	An individual member of the Cayman Islands public		Yes
Grand Cayman	Central Mangrove Wetland	Richard Foster	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Central Mangrove Wetland	Sarah Burton	Yes	I'm very familiar with it	I support it	This is a beautiful place to kayak and enjoy nature. I've witnessed firsthand so many creatures calling this place home, I was surprised to see on the map that it wasn't already protected.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Central Mangrove Wetland	Vaughn Bodden	Yes	I've been there once or twice	I support it	As the largest intact habitat in Grand Cayman, legal protection for every part of the central mangrove wetland and ensuring it remains undeveloped should be a top priority for every government official. It provides essential ecosystem functions/ services that support biodiversity and human life as we know it on Grand Cayman.	I support this	An individual member of the Cayman Islands public		No
Grand Cayman	Central Mangrove Wetland	Dart Real Estate	Yes	I'm very familiar with it		We are conceptually supportive of the principle of Protected Areas designation. However, the National Conservation Law does not specifically refer to the implications of owning land adjacent to Protected Areas. In addition as the law does not call for the Management Plan to be prepared prior to designation, we are uncertain of the developability of the land adjacent to a Protected Area. Representatives from Dart Real Estate have met with the Department of Environment to help inform our understanding of how Protected Area designations will impact future uses and development opportunities for Dart-owned lands. As the process becomes more developed, it will be beneficial for the purpose of effective land planning. In our meeting the Department of Environment committed to work closely together on drafting the Management Plans for future Protected Areas adjacent to Dart-owned properties, ensuring that the full scope of structure, site work, operations, staffing and budget are addressed. However, given the lack of certainty surrounding implications and limitations of Management Plans on adjacent lands, we cannot offer explicit support of the nominations of the above listed Crown Land to become Terrestrial Protected Areas under Section 9 of the National Conservation Law. We reiterate our support of the concept of Protected Areas. In addition to its commitment to sustainable practices and responsible environmental management of its developed properties, Dart Real Estate holds considerable land on Grand Cayman and Little Cayman largely for conservation purposes. We have also worked closely over the last decade with the National Trust for the Cayman Islands to acquire additional land for conservation purposes. We look forward to working with the Department of Environment and National Conservation Council and assisting with the preparation of site specific and effective long-term Management Plans, based on sound and proven resource management principles and practices.	I support this	Other (please specify)	Adjacent landowner (in receipt of Notice of Nomination from NCC)	Yes
Grand Cayman	Central Mangrove Wetland	Patrick Gregory Schmid, Attorney for the Estate of Mr. Heber James Arch Sr.	Yes	I know it quite well	I do not support it	A portion of this land - Duck Pond, 41A 3 is under dispute and the CROWN does NOT have title absolute but rather only a PROVISIONAL title. A Caymanian family lays claim to this property.	I support this	Other (please specify)	A representative of the claimants.	Yes
Grand Cayman	Central Mangrove Wetland	A caymanian who recognises the importance of our natural environment	Yes	I know it quite well	I support it	We need this	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Preston Bay ponds and shrubland	Amy Scott Wood Gage	Yes	I'm very familiar with it	I support it	I support as much conservation from inappropriate development as possible. We need our small islands, they are unique, and getting more like Miami all the time. It's tragic. Please save our Islands.	I support this	Other (please specify)	Heritage Citizen, West End, Cayman Brac	No

Appendix 3 - Responses

Island	Area	Name or Organisation	Have you read this nomination?	How familiar are you with this nominated area?	Support for nomination	Please let us know in your own words any thoughts, opinions or suggestions you may have about this nomination.	General support for protected areas in Cayman?	I am commenting as:		Registered Voter?
Little Cayman	Preston Bay ponds and shrubland	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Preston Bay ponds and shrubland	David Bocutti	Yes	I know it quite well	I support it	I support the proposed protected area of Little Cayman Preston Bay Shrublands and Ponds because it is important to the Sister Islands Rock Iguanas and it includes 3 shallow brackish ponds offering views of water birds as well as supporting the Cayman Islands' only population of annual Glasswort and for the other reasons listed in the nomination. This protection will connect National Trust properties which have been secured to protect nesting habitat for the rock iguanas.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Preston Bay ponds and shrubland	Dr. Joy Mulholland	Yes	I'm very familiar with it	I support it	The Preston Bay area is the major site of nesting of the endangered Rock Iguana, as well as an important nesting site for endangered sea turtles and should be protected to preserve these important animals.	I support this	Other (please specify)	A legal resident of Little Cayman	No
Little Cayman	Preston Bay ponds and shrubland	Enno Krebbers	Yes	I know it quite well	I support it	Key area for Rock Iguanas, whose nesting areas are adjacent (across the road) and who live and carry out other activities in this region. Parts are adjacent to one of the three major resorts, meaning tourist often see this area and enjoy learning about wildlife activities there. Recent study of possible key areas for protection put this region high on the list.	I support this	Other (please specify)	Legal resident of Cayman Islands	No
Little Cayman	Preston Bay ponds and shrubland	John Epp	Yes	I've been there once or twice	I support it	Designation is good for tourism and the environment.	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Preston Bay ponds and shrubland	Laura Powery Egglisshaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Preston Bay ponds and shrubland	Martin Wilkinson	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Preston Bay ponds and shrubland	Patricia MacTiernan	Yes	I know it quite well	I support it	My husband and I support the proposed protected area of Little Cayman Preston Bay Shrublands and Ponds because it is important to the Sister Islands Rock Iguanas and it includes 3 shallow brackish ponds offering views of water birds as well as supporting the Cayman Islands' only population of annual Glasswort and for the other reasons listed in the nomination. This protection will connect National Trust properties which have been secured to protect nesting habitat for the rock iguanas.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Preston Bay ponds and shrubland	Vaughn Bodden	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		No
Little Cayman	Preston Bay ponds and shrubland	Bonnie Scott	Yes	I know it quite well	I am neutral, unsure or ambivalent about it	Why nothing for Cayman Brac? I do not support continuing to let developers destroy the Brac. Areas need to be preserved now before they are ALL gone.	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Booby Pond west	A. D. Bocutti	Yes	I know it quite well	I support it	I support the proposed extension to protected area near the Booby Pond because it will safeguard key habitat for 5 species and for the other reasons listed in the nomination.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Booby Pond west	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Booby Pond west	Courtney Platt	Yes	I'm very familiar with it	I support it	One of the best birding sites in all of Cayman, Booby Pond offers great potential for future ecotourism opportunities. If we claim to support sustainable development practices, then we must prove it by putting our best natural resources under protection.	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Booby Pond west	Dr. Joy Mulholland	Yes	I'm very familiar with it	I support it	The resident nesting population of red footed boobies has been moving the nesting grounds to the west in recent years. This land must be preserved to maintain the breeding colony of red footed boobies on the pond.	I support this	Other (please specify)	A legal resident of Little Cayman	No
Little Cayman	Booby Pond west	Enno Krebbers	Yes	I know it quite well	I support it	nomination form says it well. Important location for different types of wildlife, the boobies, but also others as noted. Many visitors come to a site overlooking it to watch the birds - important for the tourist industry on the island. Development here would have knock-on effects on wildlife over the whole region.	I support this	Other (please specify)	Legal resident of Cayman Islands	No
Little Cayman	Booby Pond west	John Epp	Yes	I've been there once or twice	I support it	Designation will safeguard key habitats for endangered, threatened, and endemic species. The whole Island should be designated protected. It could be protected and then presented like Galapagos Islands.	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Booby Pond west	Laura Powery Egglisshaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Booby Pond west	Martin Wilkinson	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Booby Pond west	Patricia MacTiernan	Yes	I know it quite well	I support it	My husband and I support the proposed extension to protected area near the Booby Pond because it will safeguard key habitat for 5 species and for the other reasons listed in the nomination.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Booby Pond west	Sarah Burton	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No
Little Cayman	Booby Pond west	Vaughn Bodden	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		No
Little Cayman	Tarpon Lake	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Tarpon Lake	David Bocutti	Yes	I know it quite well	I support it	I support the proposed extension to protected area near Tarpon Lake because it will safeguard extensive feeding habitat for a variety of species and for the other reasons listed in the nomination. This wetland complex never dries out and is highly biologically productive. This will protect Little Cayman's largest single wetlands complex.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Tarpon Lake	David F. Davis	Yes	I'm very familiar with it	I support it	"This is an outstanding proposal and I offer my encouragement for its adoption. In my humble opinion, this is the highest and best use of the property. It, especially with similar proposals, allows Little Cayman to preserve environmentally significant land and maintain the character of the island. In support of this proposal I will seriously consider donating portions of my property north of Wonder Lane and Guy Banks Road that are located contiguous to the Tarpon Lake Parcel"	I support this	Other (please specify)	A landowner contiguous to the proposed protected area	No
Little Cayman	Tarpon Lake	Dr. Joy Mulholland	Yes	I'm very familiar with it	I support it	Tarpon lake is a brackish wetland characterized by a large mangrove community which provides habitat and nesting grounds for birds and a nursery for development of young fish and shellfish. The mangroves also protect the island from high winds by preventing erosion and mitigating damage from sea water that washes over in storms.	I support this	Other (please specify)	A legal resident of Little Cayman	No
Little Cayman	Tarpon Lake	Enno Krebbers	Yes	I know it quite well	I support it	Key area for ducks and other avian wildlife. Major attraction for tourists, so much so the resorts actually maintain the boardwalk when the government does not appear on time. Fish love the pond itself and attract those who enjoy fishing. Good rest stop for bikers on the island.	I support this	Other (please specify)	Legal resident of Cayman Islands	No
Little Cayman	Tarpon Lake	Giedrius Ploplys	Yes	I'm very familiar with it	I support it	Very important to protect	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Tarpon Lake	John Epp	Yes	I've been there once or twice	I support it	Protection of Tarpon Lake wetland will safeguard habitat which is representative of Little Cayman's coasts. It will support long term maintenance of the biodiversity that depends on it. This specific wetland complex is unique.	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Tarpon Lake	Laura Powery Egglisshaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Tarpon Lake	Martin Wilkinson	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Tarpon Lake	Patricia MacTiernan	Yes	I know it quite well	I support it	My husband and I support the proposed extension to protected area near Tarpon Lake because it will safeguard extensive feeding habitat for a variety of species and for the other reasons listed in the nomination. This wetland complex never dries out and is highly biologically productive. This will protect Little Cayman's largest single wetlands complex.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Tarpon Lake	Peter Hillenbrand, Southern Cross Club	Yes	I'm very familiar with it	I support it	As the owner of the only resort to use the tarpon pond for catch and release fishing, I would support some sort of regulation of this fishery, and maybe even a nominal charge to use the pond. Proceeds could go to help maintain the walkway into the pond.	I support this	A business or company operating in the Cayman Islands		No
Little Cayman	Tarpon Lake	KPTL Ltd.	Yes	I'm very familiar with it		In principle, while KPTL Ltd. supports the concept of conservation and Protected Areas, due to the lack of certainty surrounding implications and limitations of Management Plans on adjacent lands, we are unable at this time to support the specific nomination of the above listed Crown Land as Terrestrial Protected Areas under Section 9 of the National Conservation Law.	I support this	Other (please specify)	Adjacent landowner	No

Appendix 3 - Responses

Island	Area	Name or Organisation	Have you read this nomination?	How familiar are you with this nominated area?	Support for nomination	Please let us know in your own words any thoughts, opinions or suggestions you may have about this nomination.	General support for protected areas in Cayman?	I am commenting as:		Registered Voter?
Little Cayman	North coast wetlands	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	North coast wetlands	David Bocutti	Yes	I know it quite well	I support it	I support the proposed protected area of Little Cayman North Coast Wetlands because it will support large numbers of migrating waterfowl and for the other reasons listed in the nomination.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	North coast wetlands	Deanna Smith	Yes	I know it quite well	I support it		I support this	An individual member of the Cayman Islands public		No
Little Cayman	North coast wetlands	Dr. Joy Mulholland	Yes	I'm very familiar with it	I support it	The Rock Iguana, found only in the sister islands and endangered, also inhabits this part of the island and the habitat should be protected.	I support this	Other (please specify)	A legal resident of Little Cayman	No
Little Cayman	North coast wetlands	Enno Krebbers	Yes	I'm very familiar with it	I support it	One of my favorite bike rides through the island is along this northern coast area. Yes, ducks, but other wildlife often seen too. Happily the road is unpaved, reducing traffic and reducing threats to the wildlife. The kind of area that allows Little Cayman to be a "jewel of the country", attracting tourist to the Caymans as a whole to spend money on Grand, then visit beautiful areas like this.	I support this	Other (please specify)	Legal resident of Cayman Islands	No
Little Cayman	North coast wetlands	John Epp	Yes	I've never visited it	I support it	I have been told that the wetlands are visually appealing, and are a key element of Little Cayman's nature island experience. I want to enjoy this in the years ahead.	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	North coast wetlands	John, Alice, Kathryn and William ASHWELL	Yes	I've been there once or twice	I support it	Although my family members (the 4 listed owners) all support protection of the wetlands we would seek allowance to gain access to our parcel 89A/12 in as environmentally un practicable a manner as possible by allowing some form of low impact bridging at the narrowest point as the main section of this parcel is otherwise inaccessible. If the environmental agency wished to purchase this parcel for protection we would consider a sale if it were to be used for the creation of an environmental sanctuary for example.	I support this	A person or entity based outside of the Cayman Islands		No
Little Cayman	North coast wetlands	Laura Powery Egglislaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	North coast wetlands	Martin Wilkinson	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	North coast wetlands	Patricia MacTiernan	Yes	I know it quite well	I support it	My husband and I support the proposed protected area of Little Cayman North Coast Wetlands because it will support large numbers of migrating waterfowl and for the other reasons listed in the nomination.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	North coast wetlands	Vaughn Bodden	Yes	I've never visited it	I support it		I support this	An individual member of the Cayman Islands public		No
Little Cayman	North coast wetlands	KPTL Ltd.	Yes	I'm very familiar with it		In principle, while KPTL Ltd. supports the concept of conservation and Protected Areas, due to the lack of certainty surrounding implications and limitations of Management Plans on adjacent lands, we are unable at this time to support the specific nomination of the above listed Crown Land as Terrestrial Protected Areas under Section 9 of the National Conservation Law.	I support this	Other (please specify)	Adjacent landowner	No
Little Cayman	Crown wetland 82A/17	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Crown wetland 82A/17	David Bocutti	Yes	I know it quite well	I support it	I support the proposed protected area of Little Cayman Crown Wetlands 82A/17 because it is essential to the survival of a critically endangered species and for the other reasons listed in the nomination.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Crown wetland 82A/17	Dr. Joy Mulholland	Yes	I know it quite well	I support it	This species of snail is only found on Little Cayman and is restricted to this area of the island. Without protection, the snail will become extinct.	I support this	Other (please specify)	A legal resident of Little Cayman	No
Little Cayman	Crown wetland 82A/17	Enno Krebbers	Yes	I've been there once or twice	I support it	An area of the island inaccessible to most due to the quarry to the south. But that may be preserving it for future generations to enjoy. While a nature trail might work, the wilderness attracts tourists and so makes the island as a whole part of what attracts people to Grand Cayman overall. In any case careful investigation of what other wildlife is present should be done before development is allowed - probably best to protect it to start with, as being inland it will be less attractive for homes.	I support this	Other (please specify)	Legal resident of Cayman Islands	No
Little Cayman	Crown wetland 82A/17	Laura Powery Egglislaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Crown wetland 82A/17	Martin Wilkinson	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Crown wetland 82A/17	Patricia MacTiernan	Yes	I know it quite well	I support it	My husband and I support the proposed protected area of Little Cayman Crown Wetlands 82A/17 because it is essential to the survival of a critically endangered species and for the other reasons listed in the nomination.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Crown wetland 82A/17	Vaughn Bodden	Yes	I've never visited it	I support it		I support this	An individual member of the Cayman Islands public		No
Little Cayman	Crown wetland 82A/17	KPTL Ltd.	Yes	I'm very familiar with it		In principle, while KPTL Ltd. supports the concept of conservation and Protected Areas, due to the lack of certainty surrounding implications and limitations of Management Plans on adjacent lands, the Company is unable at this time to support the specific nomination of the above listed Crown Land as Terrestrial Protected Areas under Section 9 of the National Conservation Law.	I support this	Other (please specify)	Adjacent landowner	No
Little Cayman	Crown East interior	Brenda Miller	Yes	I'm very familiar with it	I support it	As a 13 year resident of the East End of Little Cayman, I have the pleasure of enjoying the unique eco-system that the East End has to offer. While I am not an expert on plants, it is easy for anyone to see that the plants on this end of the island differ from those on other parts of Little Cayman. This, I think, makes preservation essential.	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Crown East interior	CLINTON E. EBANKS	Yes	I'm very familiar with it	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Crown East interior	David Bocutti	Yes	I know it quite well	I support it	I support the proposed protected area of Little Cayman Crown East Interior wetlands because it is important to Whistling Duck and other water birds and it includes mixed habitat representative of the natural ecological systems of Eastern Little Cayman and for the other reasons listed in the nomination.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Crown East interior	Dr. Joy Mulholland	Yes	I'm very familiar with it	I support it	This area is widely used as habitat by the endangered and endemic Rock Iguana and should be preserved.	I support this	Other (please specify)	A legal resident of Little Cayman	No
Little Cayman	Crown East interior	Enno Krebbers	Yes	I'm very familiar with it	I support it	My home is just to the north, so we love the area. Aside from birds (ducks, but also nighthawks, owls and others), Rok iguanas live along the edges of this area and probably some in it. Developers have tried to ruin it by paving "roads to nowhere" and selling the plots to people who do not understand the practical aspects of building in such areas. This core area is still undamaged and should be left so to keep the island attractive to tourists to the Caymans as a whole as a natural core.	I support this	Other (please specify)	Legal resident of Cayman Islands	No
Little Cayman	Crown East interior	Giedrius Ploplys	Yes	I'm very familiar with it	I support it	Important to save as unscrupulous developers are threatening this very large block of land.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Crown East interior	John Epp	Yes	I've never visited it	I support it	I support the need to protect this land to safeguard feeding habitat for a variety of migratory waterfowl species, and the West Indian Whistling Duck.	I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Crown East interior	Laura Powery Egglislaw	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Crown East interior	Martin Wilkinson	Yes	I've been there once or twice	I support it		I support this	An individual member of the Cayman Islands public		Yes
Little Cayman	Crown East interior	Patricia MacTiernan	Yes	I know it quite well	I support it	My husband and I support the proposed protected area of Little Cayman Crown East Interior wetlands because it is important to Whistling Duck and other water birds and it includes mixed habitat representative of the natural ecological systems of Eastern Little Cayman and for the other reasons listed in the nomination.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Crown East interior	Vaughn Bodden	Yes	I've never visited it	I support it	Protecting large areas of land in Little Cayman will help ensure the island keeps its status as an unspoilt paradise long into the future.	I support this	An individual member of the Cayman Islands public		No
Little Cayman	Crown East interior	Sherry Scott	Yes	I've been there once or twice	I am neutral, unsure or ambivalent about it	I am unsure. My property is for sale. I would not want this to deter prospective buyers.	I am neutral, unsure or ambivalent about this	Other (please specify)	land owner in the area	Yes
Little Cayman	Crown East interior	Quartermaster Investments Ltd.	Yes	I'm very familiar with it		Quartermaster Investments Ltd. did not receive notice of this nomination per Section 9 of the National Conservation Law and accordingly submits that, the consultation is invalid and therefore the nomination should be deferred.	I support this	Other (please specify)	Adjacent landowner	No
Little Cayman	Crown East interior	Arezou Neysari	Yes	I've been there once or twice	I do not support it	My plan is to build on my land in the future once planning permission is approved and my plot does not impeach on the area in question.	I am neutral, unsure or ambivalent about this	Other (please specify)	Owner of land with my husband plot 91A/168	No
Little Cayman	Crown East interior	Phillip John Edmondson	Yes	I've been there once or twice	I do not support it	My plan is to build on my land in the future once planning permission is approved and my plot does not impeach on the area in question.	I am neutral, unsure or ambivalent about this	Other (please specify)	Owner of land with my wife plot 91A/168	No
